

V315

V315 is the mid-bass element in the Vero array system.

The horn loaded triple 15” design gives musical fundamentals the clarity and authority they deserve. Drums have “punch” and power, and bass has articulation and rhythm.

The modular design of Vero gives the system designer an extra dimension of flexibility and control, alongside vertical angle settings. The sound field can be precisely tailored to the venue, and acoustically controlled without beam steering or DSP.

- Features:
- Clear and dynamic mid-bass “punch”
 - Excellent electroacoustic energy efficiency
 - Integrated flying system for quick and easy deployment
- Frequency Response (-3dB): 50Hz - 250Hz
- Weight: 116kg (256lbs)
- Nominal Dispersion: Determined by array
- Connectors: 1 x Neutrik NL4

Driver	Crossover Frequencies	Sensitivity (at 1m)*	Power (AES)	Nominal Impedance
3 x 15”	45/85Hz - 220Hz	101dB at 1.6V	1500W	2.7Ω

*Measured in free field
